

# STORAGE CABINET TYP WES

- **Rittal System VX25 Standard Carbinet**
- **Capacity 700kg**
- **7 Shelves a 100kg**
- **0,45 kW Heating capacity**
- **40° C**
- **Thermometer**
- **Hygrometer**

## Technical Data

**Capacity 700 kg**

**Input voltage  
230V**

**Power output  
450 W**

**Temperature  
max 40°C**

**Dimensions H/W/D  
2200 x 600 x 500**

**Weight 140kg**

**Order number  
500250**

The Dryfast storage enclosure WES for electrodes, welding wire or flux is a system enclosure from Rittal.

The brand offers worldwide service for different requirements, innovative products and pioneering engineering solutions.

This enables us to offer our customers the many variants as standard.

The storage enclosure is only designed for storing electrodes that have already been dried.

The inside of the WES storage cabinet is lined with insulation to maintain a constant temperature.

An analogue thermometer and hygrometer are included in the delivery to check the temperature and humidity.

You can decide for yourself where the two measuring devices should be installed.

4 air chimneys ensure good air circulation.

The complete heating technology and a heat separation plate are built into the base.

The WPS is supplied without a mains plug.

All technical specifications are target values.  
Dryfast GmbH & Co. KG reserves the right to change them without prior notice.  
No liability is accepted for damage resulting from use.
